## Introducing Smart LAG ID

Dear ,

The world is evolving into a smart world; we have smartphones, smart watches, smart glasses and now we are introducing the smart LAG ID card, just for you.

That sounds exciting, right?

Verve Card did something really cool with LASRRA (Lagos State Residents Registration Agency); the multipurpose resident's smart card tagged LAG ID was unveiled and the card combines biometric identification with cutting-edge technology.

The LAG ID provides the ease of convenience, enabling residents to make transactions via the ATMs, WEB and POS at any time, while also enjoying the dual benefits of verifying their identities and readily been able to access the various social amenities provided by the government.

Holders of the new smart card will be able to enjoy an array of benefits that come with being a Verve cardholder. Verve constantly offers extensive and exciting rewards.

To register, visit [www.lagosresidents.gov.ng](http://www.lagosresidents.gov.ng) or any LASRRA center near you. Registration is free.
